^[1] Projected Incurred Claims: best estimate claim continuance based on combination of SOA LTC Intercompany Study 2000 - 2011 Report and reinsurer's experiences, discounted at 5.0%; best estimate incidence shown in Attachment E1.1.

^[2] Proposed rate increase: 20%; projection includes a 3% shock lapse rate, a 11% benefit reduction and only 50% of the rate increase implemented in 2017.

Dear Commissioner Miller.:

The referenced rate filing is submitted on behalf of John Alden Life Insurance Company for your review:

Individual policy forms J-5762-P, et al. and riders provide benefits for confinement in a qualified nursing facility or Home Health Care. These forms and riders were issued until August 1996.

Individual policy forms J-5875-P, et al. and riders provide benefits for confinement in a qualified nursing facility, Assisted Living Facility, or Home Health care. These forms and riders were issued until November 2000.

The company is requesting the approval of a uniform 20% rate increase on the base rates only. The details of the rate increases are in the actuarial memorandum.

The company will provide several options to the policyholders to reduce the impact of the rate increase:

- Reduce the daily benefits, subject to a minimum of \$20
- Change benefit options to lower the premium
- Offer a paid up option which provides a benefit pool equal to the premiums paid

Teresa Miller, Commissioner Pennsylvania Insurance Department Page 2

The following items are included in this submission:

- This cover letter
- A letter from John Alden Life Company authorizing us to submit this filing on their behalf
- An actuarial memorandum and rate schedules
- Policyholder Notice of Rate Increase Letter & Coverage Change Request Form
- Plus any other state required forms

Actuarial Memorandum

September 2016

1. Purpose of Filing

This actuarial memorandum has been prepared for the purpose of documenting a proposed rate increase and demonstrating that the rates meet the requirements in the statutes of Pennsylvania. It may not be suitable for other purposes.

2. Requested Rate Increase

The company is requesting an increase, which does not vary by policy form or issue age. Experience termination rates for inforce policies and policies in claim status are substantially lower than expected, resulting in expected loss ratios which would not be sustainable under the current premiums.

The base rate increase for forms J-5762 and J-5875 is 20%. The new premium for any contract is equal to the product of the contract's current premium and one plus the base premium increase percentage.

Rate increase impact exhibits are in attachment A.

3. Premiums

Premiums are unisex and payable for either ten years or life. For each policy form, the premiums vary by issue age, initial daily benefit, benefit period, elimination period, risk class, individual vs. joint coverage, and the riders selected.

Please see attachments B1.1-B2.3 for rates:

4. Description of Benefits

Forms J-5762

The policy and riders are guaranteed renewable for life. The policy and riders provide lifetime coverage with a

maximum total benefit \$5,000,000. A 3-year plan is also available. The 3-year plan pays benefits for a maximum

total of 2,190 days (6 years) for all claim benefit periods combined.

Long Term Nursing Care Policy - \$10.00 per day of Long Term Nursing Care facility are benefits payable after an

elimination period of 0, 30, 90, or 180 days.

Optional Home Health Care Rider - \$5.00 per day or \$10.00 per day of Home Health Care Benefit payable after an

elimination period of 0, 30, 90, or 180 days. An Alternative Plan of Care is also available if insured is otherwise

qualified for benefits under the policy or rider. Under joint coverage this benefit is payable to either or both insureds,

if qualified.

Other Optional Benefits Riders - May include full/limited survivor benefit and continuation of coverage, cost of

living adjustment, and waiver of premium etc.

Forms J-5875

The policy and riders are guaranteed renewable for life. The policies and riders are available as lifetime coverage

with an unlimited benefit period or for 2, 3 or 4 year benefit periods. Restoration of the benefit period is provided if

the insured is not eligible to receive benefits for at least 180 consecutive days. Maximum total benefits for all claim

benefit periods combined are: 2 Year -- 1,460 Days (4 years); 3 Year -- 2,190 Days (6 years); 4 Year - 2,920 Days (8

years).

Long Term Nursing Care Policy - \$10.00 per day of Long Term Nursing Care Benefit (skilled, intermediate or

custodial nursing care) while confined in a qualified Long Term Care Facility. Available elimination periods are 0, 30, or 90 days.

Bed Reservation Benefit pays \$10.00 per day, up to 14 days per calendar year, when insured incurs charges to reserve a bed in a Long Term Care Facility during hospitalization.

Alternative Plan of Care Benefit provides medical or non-medical benefits agreed upon by insured, Physician and the Company which may enable the insured to end Long Term Care Facility confinement and recover at home or in an alternative facility.

Waiver of Premium Benefit is provided after confinement in a Long Term Care Facility for a period of 90 consecutive days.

Personal Care Advisor, accessible through toll-free telephone number, is assigned to insured upon claim to provide assistance with any questions.

Optional Home and Community Based Care Reimbursement Benefit Rider - Pays 100% of actual expenses incurred up to the maximum daily benefit chosen for services provided by a licensed professional nurse or therapist. 80% of actual expenses incurred up to maximum daily benefit chosen is paid for adult day care, confinement in a qualified Assisted Living Facility, homemaker services, services provided by a qualified Home Care Agency and respite care (maximum of 21 days per calendar year). Premiums are waived after 90 consecutive days of confinement in an Assisted Living Facility. Benefits are payable after the elimination period. Insured may choose a maximum daily benefit between 50% and 100% of the daily benefit for Long Term Nursing Care and may also choose a benefit period less than or equal to the benefit period for Long Term Nursing Care.

Optional Home and Community Based Care Indemnity Benefit Rider - Pays the full daily benefit amount chosen for the same care and services described under the Reimbursement Benefit Rider. Benefits are payable after the elimination period. The insured may choose a daily benefit between 50% and 100% of the daily benefit for Long Term Nursing Care and may also choose benefit period less than or equal to the benefit period for Long Term Nursing Care.

Optional Assisted Living Facility Benefit Rider - After satisfaction of the elimination period, pays 70% of the Long

Term Nursing Care daily benefit for confinement in a qualified Assisted Living Facility. Premiums are waived after

90 consecutive days of confinement in such a facility. This rider is not available if either one of the Home and

Community Based Care Benefit Riders is purchased.

Other Optional Benefit Riders - May include full/limited continuation of coverage, shortened benefit period non-

forfeiture, and simple or compound benefit increase.

5. Marketing Method

These policy forms were marketed by individual agents who primarily sell on an individual basis.

6. Underwriting Description

These policy forms were fully underwritten with the use of various underwriting tools in addition to the application,

which may have included medical records, an attending physician's statement, telephone interview and/or face-to-

7. Renewability

These policies are guaranteed renewable for life.

8. Applicability

This filing is applicable to all inforce premium-paying policies issued in Pennsylvania on the above referenced

forms. Since these forms and riders are no longer being sold, the rate increase will only apply to in-force policies.

9. Actuarial Assumptions

a. Lapse and rate increase impact

Attachment C includes a comparison of original pricing, actual, and best estimate voluntary lapse rates. Rate increase impact assumptions:

- 50% of the premium increase is assumed to occur in 2017, 50% in 2018.
- An extra 3% of the policyholders with a rate increase are assumed to lapse.
- 11% of the policyholders with a rate increase are assumed to keep their premium level by reducing their benefits proportionally.

b. Mortality

Attachment D1 includes a comparison of original pricing, actual and best estimate mortality.

Original Pricing: 1975-80 Select and Ultimate

Best estimate: Attained age mortality is 85% of the 1994 Group Annuity Mortality Table

for ages 85 and younger and graded to 100% of the 1994 Group Annuity Mortality Table at age 90 and older, with duration selection factors, shown

in attachment D2.

c. Claims

Attachment E1.1 shows best estimate incidence rates, which are developed from reinsurer's experience. The rates vary by gender and partner status. Attachment E2.1 shows the comparison of actual and expected (original pricing) incidence.

Attachment E1.2 shows best estimate length of stay for lifetime benefit period, 90 day elimination period policies with and without 5% Compound COLA. The best estimate claim length of stay is based on SOA LTC Intercompany Study 2000-2011 Report and reinsurer's experience. Attachment E2.2 shows the actual to expected (original pricing) claim termination rate.

Recovery and return to active status is based on the policyholder attained age at the time their claim is incurred,

grading down from 50% of all claims at age 40, to 10% at age 99, and then 0% at age 120.

Utilization factors are applied to the final best estimate claim costs. These factors are as follows: 69% for

COLA reimbursement policies, 85% for non-COLA reimbursement policies, 97% for COLA indemnity

policies, and 99% for non-COLA indemnity policies.

Original pricing claim costs for skilled, intermediate aid Facility Care Benefits are derived from The

Reports of the Society of Actuaries based on the 1985 National Nursing Home Survey Utilization Data

in Transactions, Society of Actuaries, 1988-89-90 Reports; and the Long Term Care Intercompany

Study: 1984-1991 Experience in Transactions, Society of Actuaries, 1993-94 Reports. Claim costs

factors shown in the original actuarial memorandum are applied to the inforce lives and represent the

expected cost per life of incurred benefits.

Joint claim cost factors:

Original Pricing:

150% of the claim costs of the older insured

Best Estimates:

Joint and Single policies use separately developed incidence rates

Underwriting selection factors:

Original Pricing (J-5762): 20%, 40%, 60%, 80%, 100% durations 5 & later

Original Pricing (J-5875): 10%, 20%, 40%, 60%, 80%, 100% durations 6 & later

Best estimates:

10%, 20%, 40%, 60%, 80%, 100% durations 6 & later

Expenses have not been explicitly projected. It is assumed that the originally filed expenses assumptions

remain appropriate and that renewal commission rates will apply to the increased premium.

10. Issue Age Range

The issue ages are from 40 to 84 on an age nearest birthday basis, except for endorsed groups where the issue age

range is 18 to 84.

11. Claim Liability and Reserves

Active life reserves have not been used in this rate increase analysis. Claim reserves as of December 31, 2015 have

been discounted to the incurral date of each respective claim and included in historical incurred claims. Incurred but

not reported reserve (IBNR) balances as of December 31, 2015 have been allocated to a calendar year of incurral and

included in historic incurred claims. Paid claims have been discounted to the incurral date and included in historical

incurred claims. Claim Reserves are calculated for active and pending claimants as present value of benefit payments

discounted by interest and terminations. The IBNR is based on lag factors which are applied to the claim reserves

and survivor payments based on the difference between the incurral date and the valuation date.

12. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

13. Past and Future Policy Experience

Earned premiums and incurred claims for projection years 2016 through 2055 are developed from a cash flow model

representing actual contracts in force as of December 31, 2015. The assumptions described above for morbidity,

voluntary lapse and mortality are used to project life years, earned premiums and incurred claims.

Nationwide and statewide projections based on best estimate assumptions with and without proposed rate increase by

calendar year are shown as follows:

Home Office: P.O. Box 3050 Milwaukee, WI 53201-3050 Company NAIC No. 65080 Administrative Office: Post Office Box 4243 Woodland Hills, California 91365-4243

Form J-5875: Attachment F2
Combined Experience: Attachment F3

Pennsylvania:

Form J-5762: Attachment G1
Form J-5875: Attachment G2
Combined Experience: Attachment G3

Historical experience is shown by claim incurral year with the loss ratio for each loss year calculated by the following formula:

$$LR_{j} = \frac{\sum_{t=j}^{2015} Pmt_{t}^{j} \ v^{t\cdot j} + {}_{j}CR_{2015} \ v^{2015 \cdot j + 1/2} + {}_{j}IBNR_{2015} \ v^{2015 \cdot j + 1/2}}{EP_{i}}$$

 $LR_i = loss ratio for year i$

 \mathbf{Pmt}_{t}^{j} = claim payments in year t on claims incurred in year j, assumed to occur midyear

 $_{i}$ CR₂₀₁₅ = open claim reserve held on December 31, 2015 for claims incurred in year j

iBNR₂₀₁₅ = incurred but not reported reserve as of December 31, 2015 attributable to claims incurred in year j

 \mathbf{EP}_{i} = earned premium in year j, assumed mid-year

 \mathbf{j} = year of incurral

 $\mathbf{v} = 1 / 1.05 = 0.952381$

A future annual loss ratio is calculated, with and without interest, as anticipated incurred claims divided by earned premiums. A lifetime loss ratio as of December 31, 2015 is calculated as the sum of accumulated past experience and discounted future experience where accumulation and discounting occur at 5.0%.

14. History of Previous Rate Revisions

Rate increases on each form were approved on May 6, 2008. The average premium rate increases were 25.0% for form J-5762 and 25.0% for form J-5875. A flat 15.0% increase for each form was approved on December 15, 2011.

15. Analysis Performed

The initial originally approved premium schedule was based on pricing assumptions believed to be appropriate, given industry experience available when the initial originally approved rate schedule was developed.

As part of the in-force management of the business, the administrator and the reinsurer on the business monitor the performance of the business by completing periodic actual-to-expected analysis for voluntary lapse, mortality, claim incidence, and claim length of stay. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. An analysis of the projected lifetime loss ratio based on current best estimate assumptions compared to that assumed at the time of original pricing revealed that experience has deteriorated significantly.

Attachments C, D1, E2.1 and E2.2 compare experience results with original pricing assumptions. Attachments H1.1 - H2.3 compare historical and projected (based on best estimate assumptions) cumulative loss ratios with original pricing cumulative loss ratios.

Nationwide:

Form J-5762: Attachment H1.1

Combined Experience: Attachment H1.3

Pennsylvania:

Form J-5762: Attachment H2.1
Form J-5875: Attachment H2.2

In order to analyze the change in expectation from the original pricing assumptions, the cumulative loss ratios are discounted back to duration 1 in Attachments H1.1 – H2.3. The actual/best estimate cumulative loss ratio is discounted by 5.0% (best estimate assumption).

Because of the low termination rates, a significantly greater risk exposure is expected in the later durations, which

is reflected in the nationwide lifetime 204% actual to expected cumulative loss ratio in Attachment H1.3.

16. Loss Ratio Requirement Compliance Demonstration

Past experience and best estimates are used in the following projections:

In all projections the accumulated lifetime loss ratios exceed the minimum loss ratio requirements, both with and without the requested rate increase.

17. Proposed Effective Date

This rate increase will apply to policies on their policy anniversary date following a 60-day policyholder notification period.

19. Actuarial Certification

I am an Associate of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the

Academy's qualification standards for preparing health rate filings.

I believe this rate filing is in compliance with the applicable laws of the State of Pennsylvania and with the rules of

the Department. This memorandum has been prepared in conformity with all applicable Actuarial Standards of

Practice, including ASOP No. 8.

The data used to develop this actuarial memorandum was provided by LifeCare Assurance Company, the

administrator of the policies, and Employers Reassurance Corporation, a reinsurer of the business. I have reviewed

the data for reasonableness.

To the best of my knowledge and judgment, I hereby certify that:

• this rate submission is in compliance with the applicable laws and regulations of the state where it is filed;

Policy design, underwriting, and claims adjudication practices have been taken into consideration;

• the rates are not unfairly discriminatory and the gross premiums are not excessive and bear reasonable

relationship to the benefits, based on the lifetime loss ratio exceeding the minimum loss ratio requirement;

and

the relationship between renewal premium rate schedules and new business premium rate schedules is not

applicable because the company is no longer marketing new business in any states.

Re: John Alden Life Insurance Company Long-Term Care Insurance Policy POLICY NUMBER

Dear Policyholder(s):

The purpose of this letter is to advise you that premiums are being raised on all policies like yours. The premium for your long-term care insurance policy will increase effective Month XX, 20YY, your next policy anniversary date. As a result, your [modal] premium payment will increase from \$xxx.xx to \$yyy.yy, beginning with the premium payment that is due Month XX, 20YY. As an alternative to paying a higher premium, however, you may choose among policy adjustment options, which are explained below.

Please be assured that this premium increase in no way affects the integrity of your policy, nor is it based on any individual claims history, age, health status, or any other factor related to you personally. Unfortunately, the need for rate increases on long-term care policies priced in the late 1990s is widespread in the insurance industry. As experience develops, your policy may be subject to additional rate increases in the future. However, John Alden Life Insurance Company remains committed to meeting your long-term protection needs at the lowest cost possible.

Because we realize that paying an increased rate may not be financially feasible for all of our customers, we are providing options to help you maintain coverage. A long-term care policy represents an important component of a sound financial plan, so you should carefully consider which option best suits your individual circumstances and anticipated future needs. Before you adjust your benefits or decide to forgo this coverage completely, you should discuss options with your financial advisor. Please keep in mind if you reduce your benefits, you may be unable to increase them in the future.

- Benefit Reduction: By reducing your daily maximum benefit from \$xxx.xx to \$yyy.yy, your [modal] premium would be \$zzz.zz. This is approximately the same rate you are currently paying for your policy. If your policy provides home and community based care benefits, that daily benefit is reduced from \$xxx.xx to \$yyy.yy. Other terms of your policy will remain unchanged.
- Benefit Adjustment: By adjusting other policy features, you may be able to reduce your premiums. These adjustments include lengthening your elimination period or shortening your overall maximum benefit period. The elimination period is the time after you would be otherwise eligible for benefits but before you begin to receive payments. Depending on your needs, these adjustments may provide a better alternative than reducing your daily maximum benefit.

Nonforfeiture Option: If you find that you are unable or unwilling to pay any further premiums on your policy, you may elect to exercise the nonforfeiture option provided by your policy. Under this option, if you choose not to pay any future premiums, your policy would lapse but coverage would continue according to the terms of your nonforfeiture rider. This option will automatically be provided if your policy lapses for non-payment of premium.

If you would like information on alternatives to the policy changes specified on the enclosed Coverage Change Request Form, contact customer service at the number listed at the end of this letter. They will be able to provide you with more information on possible benefit adjustment alternatives and the premium impact.

If you choose to modify your coverage at this time, please complete the enclosed Coverage Change Request Form and return it to the indicated address by Month XX, 20YY. In doing so, you will ensure your requested changes are processed prior to Month XX, 20YY, the date on which the premium increase for your policy takes effect. If your Coverage Change Request Form is not received prior to Month XX, 20YY, your benefits will remain unchanged and your coverage will lapse if the increased premium is not received by the end of the grace period provided by your policy.

Should you wish to continue your policy at its current coverage level at the increased premium, you only need to pay the indicated premium when you are billed. No further action is required.

If you have questions about this letter, the premium increase, the attached Coverage Change Request Form or the options available to you, please contact our customer service associates at 888-503-8104, Monday through Friday, from 7 a.m. to 5 p.m. Pacific time.

Under this option, if you choose not to pay any future premiums, instead of your policy lapsing and providing no future coverage, it will continue under its current terms, but benefits payable under the policy will be limited to an amount equal to the premiums you have paid into your policy, or 30 times the daily benefit on the rate increase effective date, whichever is greater. No further benefit increases will occur under any Benefit Increase Rider, if attached to the policy. This option will automatically be provided if your policy lapses for non-payment of premium within 120 days of the rate increase effective date.
